3. Prepare teams to compete at the highest level internationally.
4. Design race stages which carefully and responsibly show off some of the most beautiful and rugged scenery Ireland has to offer.
5. Provide online coverage for supporters and spectators worldwide to follow teams through the race, as well as experience what the landscape has to offer.

We understand it can be difficult to get teams together and that there are athletes out there who would like to give it a go. Please feel free to contact the Beast team (info@thebeast.ie) and we may be able to help fit you with the right team or point you in the right direction.
